

Important Information Regarding: Middle East War – March 2026

Issued: 1st March 2026

Background

A surge in hostilities between Israel, the United States, and Iran has led to coordinated missile strikes on US military installations throughout the Gulf, with wider impacts extending to civilian areas in Dubai (UAE), including the Fairmont Hotel in Palm Jumeirah. The attacks triggered immediate responses from US and allied military forces.

These incidents have caused significant casualties, disrupted travel and critical infrastructure, and heightened regional uncertainty.

The security environment remains volatile with the risk of further escalation and incidental violence across the region.
